

December 2022

Waste bin systems

- **Residual waste bins:**
for non-recyclable waste
- **Organic bins:**
for all kitchen and garden waste, no compostable plastic bags
- **Green paper bin:**
for paper and cardboard
- **Blue glass bin or basket:**
for glass packaging
- **Yellow LVP bin:**
for lightweight packaging (LVP) made of plastic, metal and composites

The collection schedule only applies to bins up to 240 litres. The emptying dates for 660 and 1100 litre bins can be found on the Internet at www.entsorgung-regional.de.

Garbage fees

They consist of an emptying amount (number of empties) and an annual amount (see table on the right). Paper, glass and household waste bins are free of charge. A microchip records the frequency with which the residual waste and organic waste bins are emptied.

Annual amounts

1-person household: € 57.36
 2-person household: € 84.12
 3-person household: € 102.84
 4-person household: € 115.80
 5 and more person household: € 128.04

60 l bio bin: € 18.00
 120 l bio bin: € 24.00
 240 l bio bin: € 42.00

Provision of the waste bins

Clearly from 6.00 a.m. at the roadside, with lid opening to the street and closed; rubbish bags etc. are not taken away. If the bin has not been emptied on the usual day, it will usually be emptied the next day. Please leave the bin provided. The maximum filling weight of a waste bin must not exceed 200 kilograms per cubic metre. Cardboard boxes, bags, etc. placed next to the bins will not be taken away.

Waste separation

It is compulsory to separate used materials, organic waste and residual waste. The organic waste bin can only be dispensed with if all organic waste produced is composted by the customer.

Ordering, collection and exchange of containers:

Exchange of residual waste and organic waste bins: 23.00 € per plot. All bins damaged by wear and tear will be replaced free of charge.

Residual waste, organic waste and green paper bins::

Enzkreis District Office, Waste Management, P.O. Box 101080, 75110 Pforzheim, Fax: 07231 308-9446, abfallwirtschaft@enzkreis.de. When exchanging and returning waste, please state the booking reference from the waste charge notification or the barrel number.

Yellow LVP and blue glass bins:

PreZero Service Süd GmbH, Tel. 0800 1889966, E-Mail: ds-knittingen@prezero.de, www.verpackungsabfall-enzkreis.de

Emptying rhythm, emptying amounts

Waste type	Barrel type	Emptying amount per collection	Emptying rhythm
Residual waste	120-l-MGB (grey)	5,64 €	as required, maximum 14 days
	240-l-MGB (grey)	8,35 €	
	660-l-MGB (grey)	37,52 €	weekly or less frequently, specify rhythm when ordering
Biowaste	1,1-m ³ -MGB (grey)	55,90 €	as required, maximum 14 days
	60-l-MGB (brown)	1,00 €	
	240-l-MGB (brown)	2,20 €	
Paper	240-l-MGB (green)	–	four-weekly
	660-, 1100-l-MGB (green)	–	14-daily or four-weekly, specify rhythm when ordering
Leight-weight packaging (LVP)	240-l-MGB (yellow)	–	four-weekly
	1100-l-MGB (yellow)	–	14-daily
Glass packaging	120-, 240-, 770-l MGB (blue), basket	–	four-weekly

Bulky waste disposal

Bulky waste is bulky waste without recyclable components that does not fit into the household waste bin; e.g. armchairs, sofas, mattresses, furniture, carpets, but not waste from building renovations and household liquidations. Useable items can also be given away or exchanged via the bulky waste exchange at www.entsorgung-regional.de.

Self-delivery

at all 11 recycling yards in the Enzkreis: per cubic metre or part thereof: € 6.50 maximum 3 m³ per week and delivery.

Collection on request up to 3 m³ for a fee of € 51.00 per collection on two fixed dates per year (dates in the calendar section); request (only in writing) at least ten days before collection with a disposal cheque, which is available at all town halls or request on the Internet at www.entsorgung-regional.de.

Disposal of electrical appliances

Free delivery only at the Hamberg waste disposal centre in Maulbronn

- Large electrical appliances (edge length greater than 50 cm) such as washing machines, dishwashers, dryers, electric cookers, refrigerators, electric radiators, air conditioning units
- Screens e. g. TV sets and computer monitors
- Fluorescent tubes and energy-saving lamps

Free delivery to all recycling centres

- Small electrical appliances without screens (edge length less than 50 cm), e. g. vacuum cleaners, ironing equipment, toasters, deep fryers, clocks, blenders, computers, radios, fax machines, telephones, mobile phones.

Collection on demand

Against reimbursement of the proportional transport costs per item: 20 € for solarium, freezer, special object, 10 € for large electrical appliances, 8 € for monitors (payment at the town hall), the appliances are collected directly from the property on 11 collection dates. To the registration appropriate disposal cheques are available in the city halls. In winter, there may be delays in collection due to traffic. The customers concerned will be informed in good time about an alternative date.

Pollutant disposal from households

Twice a year, pollutants from households (e. g. paints, varnishes, solvents, batteries, fluorescent tubes, chemicals, etc.) can be handed in free of charge at a mobile pollutant collection point in all municipalities. Additional collections take place on 10 Saturdays in changing municipalities (dates in the calendar section). Used oil is not accepted, as the sales outlets are obliged to take back used oil in the quantity purchased.

Batteries and accumulators must be taken back by the points of sale. In addition, battery

containers are available in town halls, schools and recycling yards.

Small quantities of pollutants from establishments

Small quantities of pollutants from painters, varnishers, plasterers, doctors, pharmacists, forestry offices, etc. can be disposed of at a charge by the company PreZero Service Süd GmbH after prior notification by telephone (07043-939-0).

Recycling yards

The Enzkreis operates recycling yards in Birkenfeld, Frielzheim, Ispringen, Kelttern, Maulbronn, Mühlacker, Neulingen, Niefern, Königsbach, Straubenhardt and Wurmberg, which accept the following: Old clothes, old metal, old paper, aluminium, batteries, building rubble (small quantities), CDs, DVDs, small electrical appliances, windows, glass, wood, cardboard boxes, corks, plastic film, PU foam cans, edible fats and oils, bulky waste, polystyrene, toner cartridges, ink cartridges. Mineral and glass wool as well as materials containing asbestos can only be disposed at the disposal centre in Maulbronn (for a fee), as can TV sets, monitors and large electrical appliances (free of charge).

All used materials must be clean and the containers must be empty.

Fees per delivery and waste type

Waste wood, bulky waste, polystyrene
(max. 3 m³ each)

Waste wood: per cc or part thereof: € 6.50
Bulky waste: per ccc or part thereof: € 6.50
Styrofoam: per 0.25 cubic metre: € 3.50

Window sashes, glass panes, doors
up to 1 m² per piece € 3.00
over 1 m² per piece 4,50 €

Construction waste
per 100 litres €30.00

Opening hours

- Columns with grey background in the calendar.
- Further information and all opening hours can be found in a leaflet available at all town halls and recycling centres.
- www.entsorgung-regional.de.

Hamberg waste disposal centre

**75433 Maulbronn, Hamberg 4
Landfill and recycling yard**

Opening hours see calendar section

Phone: 07043-6960.

Delivery of asbestos-containing waste, mineral and glass wool only Tuesday and Thursday

Home composting

Free written information is available for home composters: see leaflets and brochures. The district supports communal composting in

apartment buildings with advice.

Garden waste disposal

In the Enzkreis there are chipping sites for the free disposal of tree and shrub cuttings up to 15 cm in diameter, as well as grass cuttings, flower residues and other garden waste. However, compostable kitchen waste is not accepted; it belongs either in the organic waste bin or on the compost heap. It is important to separate woody tree and shrub cuttings from other garden waste.

Construction waste disposal

Mineral waste (roof tiles, masonry, etc.) can be recycled via the construction waste recycling plants of the companies Natursteinwerke im Nordschwarzwald NSN GmbH & Co. KG in Kelttern (Tel. 07231-352303) and Mühlacker-Enzberg (Tel. 07041-95080), EBRD in Bretten (Tel. 07252-77515), BRP in Pforzheim - asphalt only - (07231-52575) and RBW Wiernsheim GmbH & Co. in Wiernsheim (Tel. 07044-6946). Non-recyclable mineral waste such as gypsum, chimney stones or aerated concrete blocks belong to the disposal centre in Maulbronn or in small quantities to the recycling yards (13.50 € for 100 litres).

Waste advice for schools

Teacher handout, lesson plans, tours of waste management facilities, registration form available at www.bildung.abfall-umwelt.de.

Waste advice for households and businesses

Phone: 07231-354838

Internet: At www.entsorgung-regional.de, all waste information as well as various order forms and current notices are available on the disposal platform.

In person: by appointment for lectures or consultations.

Leaflets and brochures

(available at all town halls) ...

... for private households

- Recycling yards (prices, opening hours, delivery conditions)
- Pollutant disposal from households
- Rules for composting with the quick composter
